

Get the Most out of Your Premium Access By Customizing Your News Feed!

As a premium subscriber to GenomeWeb and 360Dx, you can customize your news feed to ensure you're getting all the news you need at a frequency that works best for you. You can opt in or out of the following bulletins on your GenomeWeb or 360Dx My Account page at any time, or contact customerservice@genomeweb.com for assistance.

In general, GenomeWeb's coverage spans basic research through to translational medicine and molecular diagnostics while 360Dx is specifically focused on *in vitro* diagnostics. Mix and match your daily and weekly mailings to meet your information needs!

GW Bulletin	Frequency	Best for
GW Daily News	Twice per weekday	Readers who need the latest headlines on genomics research and personalized medicine. If you don't want to miss anything GenomeWeb publishes, this is the best option for you. If it's too much mail, select from the weekly and twice-weekly options below.
The Scan	Once per weekday	Readers interested in keeping abreast of general science news. This is not original GenomeWeb reporting, but a curated collection of articles published elsewhere.
Sequencing Bulletin	Tuesdays, Fridays	Readers tracking new developments in NGS technologies, RNA-seq, clinical sequencing, and new sequencing applications.
Molecular Diagnostics Bulletin	Mondays, Thursdays	Readers following trends in molecular diagnostics, including NGS- and PCR-based tests, and other emerging diagnostic technologies.
Cancer Bulletin	Mondays, Thursdays	Readers interested in cancer research, liquid biopsy, cancer risk testing, and cancer companion diagnostics.
PCR Bulletin	Wednesdays	Readers tracking qPCR, digital PCR, and amplification.
Informatics Bulletin	Wednesdays	Readers interested in bioinformatics, software, and life science IT.
Protein Research Bulletin	Tuesdays	Readers following protein and proteomics analysis, clinical proteomics, biomarkers.
Weekly Roundup	Mondays	Readers looking to limit their email by getting only the week's top stories.
Europe	Fridays	Readers keeping tabs on the European life science market.
Liquid Biopsy	Monthly	Readers tracking the latest liquid biopsy news.
360Dx Bulletin	Frequency	Best for
360Dx Daily News	Once per weekday	Readers who need the latest news on <i>in vitro</i> diagnostics and clinical lab management. If you're only interested in diagnostic news, this is the best way for you to stay informed.
Molecular Diagnostics	Tuesdays, Fridays	Readers following emerging diagnostic technology, regulatory, and reimbursement issues.
Cancer	Wednesdays	Readers tracking cancer diagnostics trends.
Point-of-Care Testing	Thursdays	Readers following point-of-care testing trends.
Infectious Disease	Fridays	Readers interested in diagnostic development for pathogenic diseases.
360Dx Premium	Mondays	A weekly mailing highlighting the best of 360Dx's coverage. A great option for GenomeWeb bulletin subscribers who want to stay abreast of diagnostic trends with one weekly email!
360Dx Europe	Fridays	Readers tracking the European IVD market.
