## Delta Dental RightSize Dental Plan: What You Need to Know

The MDA is keeping you informed about a new dental benefit plan from Delta Dental, RightSize Dental. The plan, introduced in late 2013 in a letter from Delta Dental, uses genetic testing and is described as a “new dental benefit plan developed using a risk-based prevention model.” The plan limits benefits for cleanings to one per year unless the patient is “at risk” for developing periodontal disease, using Delta Dental criteria. At the current time it is being offered to Delta Dental employees only. Dentists who participate with Delta Dental and have questions or concerns about how this plan impacts the care they provide should contact Delta directly.
